Association of Protestant Churches in Marburg

STRONG FOR YOUR CHILD...

This is what we stand for:

1. God wants every child - just the way s/he is.
2. Every child has a place with us - regardless of religion and nationality.
3. Every child experiences a loving atmosphere in our daycares, in which s/he feels safe and secure.
4. Every child belongs to a family. For this reason, parents are our most important child-rearing partners.
5. We cherish the uniqueness of children and their families.

FULFILLING NEEDS, CREATING FREE SPACES

God wants every child - regardless of where s/he comes from and what s/he can do or archive. Our Protestant Daycare Centers are open for all children from 6 months to 14 years: We value their variety and diversity with regards to religious, social and cultural affiliation. While keeping an eye on their different talents, we support — together with their parents — every child according to his/her needs and potential.

We create trusting and reliable relationships to the children and their families and offer a safe and secure atmosphere. This is the basis, on which children can open up their personalities. Parents are our most important partners.

CHRISTIAN VALUES

We convey our faith in a way that is suitable to children, true-to-life and authentic. Children ask good questions and search passionately for answers. Where do I come from? Does God love me? What happens after death? We ask the children's questions and embark with them on the search for an answer.

The children in the Evangelische Kindertagesstätten (Protestant Daycares) can get to know the Christian faith: with biblical stories, prayers, blessings and songs about God and the world. They experience this faith by celebrating Christian festivals and by helping at child and family church services. They learn that they are part of a community and get to know Christian traditions and rituals. This occurs in close cooperation with the pastors of the church parishes.

SUPPORTING SKILLS, QUENCHING THE THIRST FOR KNOWLEDGE

Children are curious and want to learn more about the world and themselves. They already possess the abilities needed to discover the world from birth. All children possess the researcher's spirit, the joy of discovery and the love of adventure. They are creative designers of their development.

We emphasize the formation of social and emotional abilities. Children learn to trust themselves and to respect others, learn how to fight and how to forgive, to assert themselves and to be considerate.

Children can follow their need for knowledge: They can observe nature, understand technology and experience their musical/creative gifts in a playful manner that is suitable for children in our centers, outside or on field-trips.
